

KHIE

In The Know

Announcements

There have been many successes in our ongoing KHIE system transition and we plan to continue achieving milestones during the month of October. KHIE is pleased to have your continued support during the upcoming web service connection cutovers!

Web Service Connections: Be on the lookout for communication regarding your system cutover! We will be requesting valuable information from **web service administrators** regarding IT freezes and current system information. It is imperative to provide the necessary forms/surveys in a timely manner so KHIE can plan your cutover appropriately.

Meet Sabrina Lee

Hometown: Lexington, KY

Previous experience: Sabrina is an experienced professional with over 20 years of Healthcare and Information Technology experience. She is knowledgeable in Project Implementation, Access Management, Revenue Management, and Data Migration. She prides herself on her ability to manage relationships with vendors and organizations. One of her favorite projects involved migrating over 200 connections from an outdated interface platform to a current solution. Sabrina joined the Kentucky Health Information Exchange in 2017 as the Project Manager and is excited to oversee KHIE's new system implementation.

Something people don't know about me: Outside of work, I enjoy spending time with my grandbabies and watching movies.

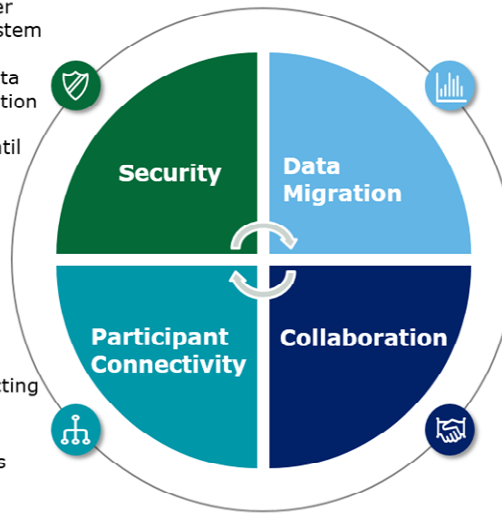

KHIE Transformation: Our Achievements

Although we are still in the early stages of the transition to the new system, we have accomplished several key objectives. Below are just a few of the highlights.

As Participants cutover from the outgoing system to the new platform, historical data and data sent during the transition period is being held securely in queues until the Interim Portal becomes available in December.

In August, KHIE's Onboarding Analysts assisted over 253 Participants in connecting to the new platform!

Additional Participants will be cutover to the new system in the coming months.

Our new HIE platform has received approximately 1 billion historic records and nearly 4 million new Participant messages during the month of August! In addition, the system is receiving historical Medicaid claims data.

KHIE is working closely with Participants and advisory committees to lay the groundwork for Phase 2.

Our Clinical Advisory Committee meeting on September 26th was very productive. Stay tuned for details in the next bulletin!

Upcoming Events

If you will be at any of these events please stop by and say hello to the KHIE team!

[2018 Navigation Summit: Nurse, Lay, and Advocate](#)

Date: October 4 & 5

Location: Louisville, KY

[Kentucky Rural Behavioral Health Symposium](#)
